

SOLUTIONS FOR HIGHER EDUCATION

PRIORITIES FOR HIGHER EDUCATION

STUDENT EXPECTATIONS

Students are becoming more conscious of their universities' green initiatives and expect colleges to use sustainable products and practices.

RETAINING WORKERS

Tightening budgets and a competitive job market lead to frequent employee turnover and difficulty hiring new staff.

CAMPUS IMAGE

Keeping high-traffic areas looking clean and presentable is crucial to attracting prospective students and donors.

HOW RCP CAN HELP

IMPLEMENT SUSTAINABLE PRACTICES

CONSERVE RESOURCES

LumeCel™ is self-powered by indoor or natural lighting, eliminating the need for single-use batteries.

COMPLY WITH REGULATIONS

Adaptable recycling stations allow campuses to adapt colors, labels and lid openings to fit their waste stream needs.

ACHIEVE CERTIFICATIONS

Motion-activated faucets can help reduce water usage and may earn buildings points toward LEED certification.

IMPROVE CUSTODIAN EFFICIENCY

MAINTAIN HIGH-TRAFFIC SPACES

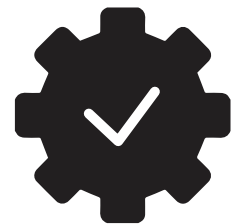

Quick-Connect handles allow custodians to adjust lengths to clean hard-to-reach spaces.

CLEAN WITHOUT INTERRUPTIONS

“Closed For Cleaning” hanging doorway safety signs help custodians clean restrooms without interruptions.

REMOVE WASTE WITH EASE

Slim Jim® containers are designed with venting channels that make removing liners up to 80% easier.

MAINTAIN AN INVITING CAMPUS

TRANSPORT WASTE DISCREETLY

Tilt truck lids cover waste, making transport more discreet.

COMPLEMENT FACILITY AESTHETIC

Decorative Refuse containers with timeless designs complement any campus’s aesthetic.

INTRODUCE CLEAN SCENTS

Air Care dispensers create an inviting and clean impression of campus.

ACHIEVE APPA LEVEL 1 OF CLEAN

WITH PROPER CLEANING PROCEDURES

APPA, the Association of Physical Plant Managers, developed the Five Levels of Clean to help schools and institutions assess the cleanliness of their facilities and improve their practices. Level 1, Orderly Spotlessness, is the optimal level of clean.¹

1 COLLECT WASTE DAILY

Collect waste and recycling daily with Utility Refuse containers and dollies or higher capacity tilt trucks.

2 DUST AND CLEAN SURFACES

Dust surfaces from top to bottom with a dusting wand, then wipe clean with a microfiber cloth.

¹ APPA Custodial Operation Self-Analysis Program

3 DUST AND MOP FLOORS

Pick up dust, dirt and debris with a dust mop, then clean the floors with a flat wet mop or traditional wet mop.

4 CLEAN AND STOCK RESTROOMS

Clean sinks, counters and mirrors with designated microfiber cloths. Clean toilets with a toilet brush.

REFUSE SOLUTIONS

IMPROVE RECYCLING RATES

Choose from a variety of waste stream solutions that help institutions comply with regulations and institutional sustainability goals. Recycling stations help improve recycling rates while reducing contamination rates.

SUSTAINABILITY:

Waste stream labels provide visual cues that help aid waste sortation accuracy and improve recycling rates.

PRODUCTIVITY:

Utility Refuse containers feature integrated liner cinches that eliminate the need to tie knots.

IMAGE:

Decorative Refuse containers come in contemporary designs that seamlessly blend with modern indoor and outdoor areas on campus.

¹ The American Freshman: National Norms Fall 2017

CLEANING SOLUTIONS

MAINTAIN A CLEAN CAMPUS

Having a clean campus is essential to attracting prospective students and donors. Stock up on cleaning tools that help custodians keep all areas, especially those most visited, looking clean all day.

SUSTAINABILITY:

Universities can make a positive impact on the environment by using products made of sustainable materials like the Swinger Loop® Wet Mop that is made of up to 100% recycled materials.

PRODUCTIVITY:

The HYGEN™ PULSE™ Microfiber Mop Kit has an onboard reservoir that allows custodians to clean more square feet in less time by reducing the time spent emptying and filling mop buckets.

IMAGE:

The Microfiber Finish Kit ensures controlled release of finish, protecting floors from scuffing and high-traffic wear and tear.

MATERIAL HANDLING SOLUTIONS

TRANSPORT SUPPLIES AND WASTE EFFICIENTLY

Maximizing productivity while transporting supplies and waste is important on college campuses. Utility carts have integrated features that carry tools needed for maintenance tasks, while tilt trucks efficiently carry large volumes of waste and recycling.

SUSTAINABILITY:

Mega BRUTE® Mobile Collectors can hold a 23 gallon Slim Jim® container for improved waste sortation and recycling.

PRODUCTIVITY:

Front-access zippered bags on cleaning carts allow custodians to easily remove waste from the side of the bag, limiting the time spent removing waste.

IMAGE:

Tilt truck lids cover unsightly waste to promote a more discreet appearance in public areas.

WASHROOM SOLUTIONS

CONSERVE RESOURCES AND SAVE TIME

Institutions are looking for ways to operate healthier, more sustainable campuses as influence from regulators, students and the community increase. Fixtures that reduce water consumption and battery usage help institutions reach their sustainability goals.

BOOKSTORE

SUSTAINABILITY:

AutoFaucet® delivers water only when needed, resulting in water savings of up to 70%.¹

PRODUCTIVITY:

LumeCel™ is self-powered by indoor and natural lighting, eliminating the need to use and replace single-use batteries.

IMAGE:

TCell™ Dispensers create a clean impression of campus by delivering a precise dose of fragrance for 60 to 90 days.²

¹ Internal benchmark testing of RCP's AutoFaucet® vs non-automated faucets

² Number of days based on size of washroom. 60 Days - Standard Size Washroom: 3 to 4 stalls/ fixture and 90 Days - Smaller Size Washroom: 1 to 2 stalls/fixture

FOODSERVICE SOLUTIONS

IMPROVE PATRON WELL-BEING

College campuses must be equipped to feed many students, staff and visitors every day. Improve the well-being of patrons with food storage and preparation tools that help keep food safe and fresh.

SUSTAINABILITY:

FreshWorks™ Produce Saver reduces food waste by creating the optimal environment for produce, maintaining its peak freshness up to 2x longer than traditional food boxes.*

PRODUCTIVITY:

ProSave® Ingredient Bins increase task efficiency with clear lids for quick ingredient identification and one-handed access to bulk food.

*Based on romaine lettuce stored in RCP FreshWorks™ Produce Saver vs traditional food box
